

RAPID MOULDING

HIGH ACCURACY, LOW VOLUME MOULDING

- Fast turnaround: 1-2 weeks
- Flexible quantities: 1-500 parts
- Multi-cavity moulds
- High accuracy on complex parts
- Tough, durable
- Size up to 1,000mm x 300mm x 400mm
- Colour options available
- Range of hardness options
- Material - polyurethane
- UV resistance option
- Low stress mouldings

- Cost effective alternative to injection moulding, 3D printing or machining
- Suit machinery replacement parts, electronic and automotive parts
- Ideal for prototypes or short production runs
- Perfect for product samples or functional testing

THE RAPID MOULDING PROCESS
